Dear Mayor Merkes:

I am requesting an appointment to the Menasha Sustainability Board. Currently I work for East Central Wisconsin Regional Planning Commission. As part of my work experience, I have been active in ECOS-Fox Valley, and have attended multiple conferences and programs on sustainability and The Natural Step. My husband and I will be moving shortly to the City of Menasha and I would like to become involved at the City level in a topic that I feel passionate about. My work and personal experiences should be an asset to the Board.

Thank you in advance for your consideration in this manner. I look forward to discussing sustainability with you and the other board members.

Sincerely,

Kathy Thunes
