Subject: Library board

Mayor Merkes,

I was made aware of a position available with the Menasha Library Board and would like to express my interest in that position.

Having managed a business in downtown Menasha for the past 5 years, I have seen many changes. I believe the Menasha Public Library has so much to continue to offer to our community and I would love to be able to assist you and the board in bringing more awareness of it's offerings to the Fox Valley.

I am currently on the board for the Menasha Historical Society and also on the board of the Menasha Action Council. I have a passion for Menasha and would love to continue to assist "us" in our endeavor of creating a unique vibe and excitement within our community.

Sincerely submitted,

Paul P. Brunette
