Message: Hello Mayor Merkes. On 9/6/13 I toured the Tri-County Recycling Facility. During the presentation, Recycling Coordinator Chris Miller wondered aloud when the City of Menasha would begin twice monthly pickup of single stream recyclables. I responded with an account of a casual discussion among a few of my neighbors which wondered the same. The Department of Public Works has done an excellent job of informing city residents of how to recycle. Our bins are usually full on Recycle Day. Sometimes we haul to the City Garage between pickups. More products are being added to the recycling list, ie aseptic containers. I am very much in favor of increasing the number of yearly curbside recycle pickups to 18. Thank you!
