Section 7-2-9 of the City Code states when approving an application for a liquor license the following must be taken into consideration:

- Suitability of an applicant-must pass background check by Police Dept.
- Appropriateness of the location and premises to be licensed.
- All financial claims of the City must be satisfied (taxes, assessments, utilities)
- Must conform to all sanitary, safety and health requirement of the State Building Codes, State Board of Health and Local Board of Health Codes.

The Police Dept. has done a background check on all of the above mentioned applicants and has no reason to withhold any license based on their findings.

All necessary inspections by the Fire Dept., Health Dept., and Building Inspectors have been completed and all the above listed properties are compliant.

Finance Dept. and Menasha Utilities report that all financial claims of the city have been satisfied for the above mentioned applicants.

Staff recommends these applications be approved for the 2015-2016 licensing year.
