To: Menasha City Council

From: Melanie Krause, General Manager

***RE: Commissioner Vacancy***

Menasha Utilities currently has a vacancy on the Water and Light Commission and the Utility is looking for interested citizens that would be willing to be considered for the appointment to serve the remaining term until 10/1/20. Given the current makeup of the Commission and the background and expertise of those individuals we feel a good candidate would have a strong technical or engineering background to help make strategic decisions as it relates to Electric and Water.
