

## Cultural Resources

Cultural Resources, like natural resources are valuable assets which should be preserved. These resources define a community's unique character and heritage. Included in this section is an inventory of historic buildings, sites, structures, objects, archeological sites and districts.

### **State and National Register of Historic Places**

The Wisconsin Historical Society's Division of Historical Preservation (DHP) is a clearing house for information related to the state's cultural resources including buildings and archeological sites. The primary responsibility of the DHP is to administer the State and National Register of Historic Places programs. The National Register is the official national list of historic properties in the United States that are worthy of preservation. The program is maintained by the National Park Service in the U.S. Department of Interior. The State Register is Wisconsin's official listing of state properties determined to be significant to Wisconsin's heritage. The inventory is maintained by the DHP. Both listings include sites, buildings, structures, objects, and districts that are significant in national, state, or local history. Sites are chosen based on the architectural, archeological, cultural, or engineering significance.

Within the Appleton (Fox Cities) TMA, the following properties/districts are listed, by community, on the State and/or National Register of Historic Places (**Map 16-7, Insets A-H, Appleton, Kaukauna and Neenah/Menasha**).<sup>1</sup> A complete listing of the properties found in Calumet (10 listings), Outagamie (48 listings) and Winnebago (86 listings) counties are contained within **Appendix K**.

<sup>2</sup> Volksfreund Building was removed from the National Register, no explanation given. Lakeshore Depot is eligible for inclusion on the National Register, but is not listed due to owner objections.

<sup>4</sup> T. Brillion (1), T. Brothertown (1), T. Charlestown (1), T. Stockbridge (3), C. Chilton (2) and C. New Holstein (1)

<sup>5</sup> Menasha City Hall was torn down and removed from the National Register.

<sup>6</sup> T. Algoma (0), Bell site not listed on National Register), T. Nekimi (1), T. Omro (1), T. Oshkosh (1), T. Rushford (2), T. Winneconne (3), T. Wolf River (1), C. Omro (3), C. Oshkosh (33; Amos House and Buckstaff Observatory removed from National Register, Chief Oshkosh Brewery not on register)

The National Register is not a static inventory. Properties are constantly being added, and, less frequently, removed. It is, therefore, important to access the most updated version of the National Register properties. This can be found by accessing the DHP website.

### ***Mitigation Issues and System Level Mitigation Measures***

While a visual inspection does not suggest any broad system level cumulative environmental impacts to any known properties or historic districts that area listed on the National Register, a few transportation projects do come within close proximity to historic properties. Transportation projects near historic buildings and districts may have to exercise caution so as not to damage these more fragile structures during construction and include:

- Project 14: Broad Street/Tayco – Racine, Reconstruction
- Project 18: Little Chute Canal Bridge, Ped/Bike over Little Chute Lock
- Project 29: Oneida St / Valley Rd – Skyline Bridge, Reconstruction
- Project 44: Lincoln Ave/Wilson – Vandenbroek, Extension of Lincoln Ave
- Project 49: Prospect Street / CTH N – Park, Reconstruction
- Project 65: Racine St / Third – Ninth, Reconstruction
- Project 66: Veteran’s Lift Bridge, Reconstruction
- Project 78: Nicolet/First – Ninth, Resurface
- Project 82: STH 76/STH 15 - CTH JJ, Recondition
- Project 85: STH 96 / Washington – Clairbel, Reconstruct
- Project 91: Racine St. Bridge, C of Menasha

### ***Locally Significant Historic Places***

Locally significant historic places are historic structures, historic sites, or historic districts which have a distinctive historic, architectural or cultural significance to a community. The Certified Local Government (CLG) program was enacted as part of the National Historic Preservation Act Amendments of 1980 and has been established in Wisconsin to further encourage and assist historic preservation by local governments.<sup>7</sup> In Wisconsin, a city, village, county, or town can be certified by Wisconsin’s State Historic Preservation Office and the Department of the Interior as a CLG in it meets basic criteria. Within the Appleton (Fox Cities) TMA, the City of Appleton<sup>8</sup> and the City of Neenah<sup>9</sup> are CLG’s.

Historic Preservation Commissions are part of local governments and established through local preservation ordinances. A commission’s size, responsibilities, and authority depend on local laws and the needs of the community. Within the Appleton (Fox Cities) TMA, the following Historic Preservation Commissions have been established<sup>10</sup>: Appleton Historic Preservation Commission, Kaukauna Historic Preservation Commission,<sup>11</sup> Menasha Landmarks Commission, and the Neenah Landmarks Commission. A number of these active historic preservation commissions have developed surveys of the architectural and historical resources located in their communities.

Communities also may designate sites that they feel has local significance but are currently not found on the National or State Registry of Historic Places (**Map 16-7, Appleton and Neenah/Menasha Insets**). According to the City of Appleton’s website, the following sites are considered either a local historic site or a local historic building:<sup>12</sup>

- Union Spring Park: Lutz Ice Company Ice Company Artesian Well Site, 319 N. Union Place, Appleton;
- Trettin House, 523 W. Eight Street, Appleton; and
- Replica Building First Hydro-Electric Central Station, Vulcan Street, Appleton.

According to the City of Neenah the following sites are considered either a local historic site or a local historic building<sup>13</sup>:

- Edmund J. Lachmann House / S.N. Pickard House, 1010 & 1014 E. Forest Avenue, Neenah
- Kimberly Double House, 404 – 406 E. Wisconsin Avenue, Neenah

The Wisconsin State Historical Society also maintains a list of Local Historical Societies that are affiliated with the Wisconsin Council for Local History.<sup>14</sup> Local affiliates within the Appleton (Fox Cities) TMA include: the Calumet County Historical Society, the Appleton Area Historical Society, the Freedom Area Historical Society, the Kaukauna Area Historical Society, the Little Chute Historical Society, Outagamie County Historical Society, the Menasha Historical Society, the Neenah Historical Society, and the Winnebago County Historical and Archeological Society.

### ***Mitigation Issues and System Level Mitigation Measures***

While a visual inspection does not suggest any broad system level cumulative environmental impacts to any known properties, a few transportation projects do come within close proximity to Locally Significant Historic Places. Transportation projects near historic buildings may have to exercise caution so as not to damage these more fragile structures during construction. Historic places of local significance that are in close proximity to transportation projects include:

- Trettin House, 523 W. Eight Street, Appleton. Project 2: STH 125/USH 41 - STH 47, Resurface
- Edmund J. Lachmann House / S.N. Pickard House, 1010 & 1014 E. Forest Avenue, Neenah. Project 78: Nicolet/First – Ninth, Resurface

### ***Architecture and History Inventory (AHI)***

In order to determine those sites that are eligible for inclusion on the National Register, the DHP frequently funds historical, architectural, and archeological surveys of municipalities and counties with the state. Surveys are also conducted in conjunction with other activities such as

<sup>12</sup> [http://www.appleton.org/i/d/community\\_development/NatlStateLocalSites.pdf](http://www.appleton.org/i/d/community_development/NatlStateLocalSites.pdf)

highway construction projects. A search of the DHP's on-line Architecture and History Inventory (AHI) database reveals a number of sites within the Appleton (Fox Cities) TMA:<sup>15</sup>

Inclusion in this inventory conveys no special status, restrictions, or benefits to owners of these properties. It simply means that some type of information on these properties exists in the DHP's collections. AHI is primarily used as a research and planning tool. Like the National Register, this is not a static inventory. Properties are constantly being updates. The AHI database is searchable by county, municipality and street; therefore it is recommended that a search of the database be done for each specific project.<sup>16</sup>

### ***Mitigation Issues and System Level Mitigation Measures***

Do to the large number of properties on the AHI database; a visual search between the database and transportation projects was not completed. However, as noted above inclusion in this inventory conveys no special status, restriction, or benefits to owners of these properties. This tool is to be used primarily as a research and planning tool. It is suggested that this inventory be consulted during the planning and design stage to see if any locally significant properties are present and that local historic preservation organizations be consulted.

### ***Archaeological Sites Inventory (ASI)***

An inventory similar to the AHI exists for known archeological sites across the state; the Archaeological Sites Inventory (ASI). Due to the sensitive nature of archaeological sites, information as to their whereabouts is not currently made available on-line. This information is distributed only on a need-to-know basis. Archaeological sites are added to as they are discovered; discovery is a continual process. For technical assistance and up to date information on sites within a given area, contact the State Historic Preservation Office at the Wisconsin Historical Society.

### ***Mitigation Issues and System Level Mitigation Measures***

During the planning and design stage, a determination should be made to see if there are any known archaeological sites within the vicinity of the transportation projects. If any known sites are present, the state archeologist will be consulted.

### Wisconsin Historical Markers

Wisconsin historical markers identify, commemorate and honor important people, places, and events that have contributed to the state’s rich heritage. The Wisconsin Historical Markers Program is a vital education tool, informing people about the most significant aspects of Wisconsin’s past. The Society’s Division of Historic Preservation administers the Wisconsin Historic Markers Program. Applications are required for all official State of Wisconsin historical markers and plaques. According to the Wisconsin Historical Society, nine historical markers or plaques are located within the Appleton (Fox Cities) TMA (**Map 16-7, Inserts B, D-G, Appleton, Neenah/Menasha and Table 16-7**).<sup>17</sup>

### Mitigation Issues and System Level Mitigation Measures

During the planning and design stage, a determination should be made to see if there are any historical markers within the vicinity of the transportation projects. System level analysis identifies the following projects within proximity to historical markers:

### Cemeteries

A listing of cemeteries was obtained from ECWRPC 2010 land use<sup>18</sup> and compared against Rootsweb, an online directory. Cemeteries are shown on **Map 16-7, insets A-G and Appleton and Table 16-8**. According to our records, 12 cemeteries are present within the Oshkosh MPO.

### ***Mitigation Issues and System Level Mitigation Measures***

During the planning and design stage, a determination should be made to see if there are any Museums, libraries or Other Historic and Cultural Resources within the vicinity of the transportation projects. Transportation projects near historic buildings may have to exercise caution so as not to damage these more fragile structures during construction. System level analysis identifies the following projects within proximity to museums, libraries and other historic and cultural resources:
