Greg,

Here is a drawing showing the Utility Easement along hwy 114. It appears we are in a 6' easement set back from the 50' Highway Setback Line. No one seems to know the details on this, they have indicated that it was worked out between yourself and Lonnie. Don't know if you would remember, I know I wouldn't, it was done back in 2010. Do you know if there is an Utility Easement recorded with the City?

Thanks
