Re: Application to remove walkway to the South of 175 Main St.

Dear Menasha Public Works:

Bakalor Properties is requesting permission to remove the section of the public walkway directly to the South of the building located at 175 Main St., Menasha. The walkway is currently in the way of demolition and will be difficult to work around during the build process. The development group requests to terminate the walkway at a natural seam, located at the West end of the 175 Main St. Property; put up fencing during demolition and construction; and then replace with a like-kind structure that works into the new design and elevation of the building project.

Very truly yours,

Kim Vanderheyden
