Chief Bob Stanke

I also have disability parking permits. I have thought about asking for this the past 1-1/2 years. Since one of my constituents has approached me, I will support this possible ordinance change.

Thank you for taking the time to take a look at this.

Sincerely,

Alderman Mark Langdon  
District 4  
724 Warsaw St.

We are asking that citizens with disabilities have the right to park on either side of the road overnight when night street parking is allowed. Qualifying disabled citizens would have their disabled tag displayed for identification from April 1 - November 1.

I am the owner of a duplex where I reside. Our tenants are senior citizens and qualify for disability parking. The seasonal street parking enables disabled to have an option for closer door to door parking. The even/uneven parking rule takes the vehicles farther from their door every other night.

We appreciate your consideration with this proposal. It would enable disabled citizens to be more mobile and frequent their opportunity to be active in our community throughout the day and evening.

Thank you.

Sincerely,

Richard E. Brucks
