2. Selection of Chairperson

Dan DeBonis nominated Mayor Merkes as Chairperson of the Joint Review Board. There were no other nominations. Faith Schiedermayer seconded the motion and a unanimous ballot was cast nominating Mayor Merkes as Chairman of the JRB.

3. Review of Proposed TID #12 Project Plan, Boundaries and Development Agreements

CDD Greg Keil summarized the history of the Lake Park Villas development. Despite initial successes, the development has now stalled. The debt incurred by the city for land acquisition, infrastructure and amenities was to have been paid out of the proceeds from lot sales. There have been no lot sales in three years, and the debt burden has fallen on the general tax levy. This is placing financial stress on the city. The Project Plan for TID #12 includes expenditures for land acquisition, infrastructure, amenities and development assistance with the objective being to stimulate new development.

He also described the substantive elements of the development agreements with Cypress Homes and Realty, and the Ponds of Menasha.

Board members discussed:

- Base year value of the proposed district
- The expected amount and timing of increases in tax increment
- Proposed improvements to be made in the district
- Relationship to adjoining development

Staff is to provide the JRB members the expected base year value of the district and drawings showing the proposed layout of the new development.

DRAFT

City of Menasha
Tax Increment District #12
Project Plan

April, 2011

INTRODUCTION

Wisconsin's Tax Incremental Financing law provides a mechanism that enables cities and villages to rehabilitate blighted areas, improve business areas, facilitate mixed-use development and/or develop industrial sites. The intent is to stimulate development that would not otherwise occur absent the infusion of resources from the TIF district. The cost of improvements in a Tax Incremental District (TID) is recovered from tax revenues generated by new development in the district.

Tax incremental financing enables the tax increment generated from private investment in the district to be applied to the repayment of obligations incurred by the municipality. When the cost of improvements has been recovered and the debt service and/or other obligations attributable to the district have been retired, the TID is dissolved and all taxing jurisdictions benefit from increased tax revenues on the same shared basis as before the creation of the TID.

Tax incremental financing provides benefits to all taxing entities, city, county, public schools, and technical college, by promoting development of new taxable value which otherwise would not occur. It provides a tool for municipalities to invest in projects using local financing sources to meet identified needs and fill legitimate public purpose roles. The law also recognizes that since municipalities do not share the investment risk with other tax entities, they are entitled within a prescribed period of time to receive all new tax revenues of the TID as the source of paying off all public investment costs. All other taxing entities continue to receive taxes on the value of the property as of the date of creation and will also receive benefits in the future from the increased tax base generated as a result of the city's investment in the TID.

PURPOSE

The City of Menasha is proposing the creation of Tax Increment District #12 to promote mixed-use development in proximity to STH 114 and CTH LP. Implementation of TID #12 Project Plan will stimulate residential and commercial development and provide necessary public facilities and amenities to support the development. Upon completion, the project is estimated to yield \$46 million in new tax base and support and create opportunities for residential and commercial growth.

Tax increment financing is essential to the successful development of this property. Without accessing TIF resources, the land and improvement costs would result in sale prices for developed parcels that would exceed the asking price for comparable sites elsewhere in the market. The unavailability of utilities and street access are barriers to the growth and development of this area. TIF funding is proposed to install the necessary infrastructure and write down the purchase price of the improved parcels so that land acquisition costs for prospective homeowners and businesses will be competitive.

Developed parcels within the boundary of TID #12 have been marketed without success as there have been no lot sales in over three years. Land and improvement costs, and site access has likewise hampered the sale of vacant land. It is only through the leverage provided by TIF funds that the property can be expeditiously developed. Upon full development this project is projected to yield \$46 million in new tax base and support over 170 new jobs while creating opportunities for about 200 new single and multi-family dwelling units. If the TID is not created, the undeveloped property will likely remain in an undeveloped state for many years. The city's

cost for carrying unimproved, tax exempt lands will continue to burden the city's general property tax. It is in the interest of all the taxing entities to bring about high quality, high value development of this property as rapidly as possible. Creating TID #12 provides the means for achieving this objective.

DISTRICT NAME

The name of the district is City of Menasha Tax Incremental District #12.

CREATION DATE

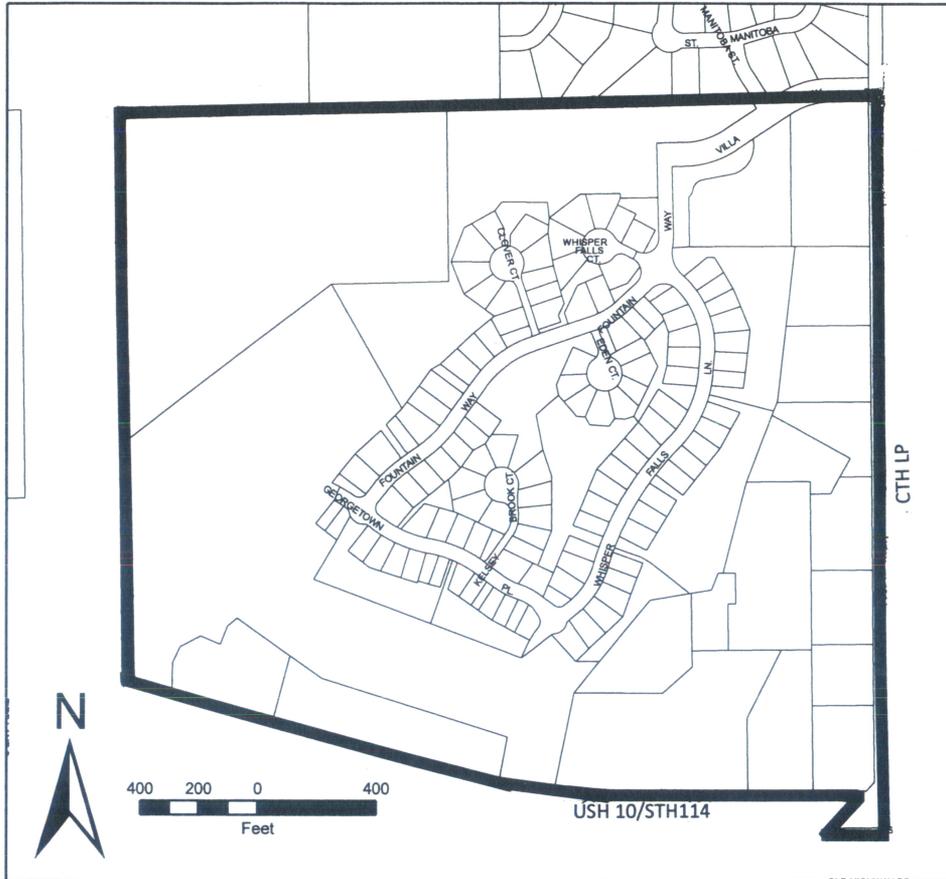

The date of creation for the purpose of establishing the base value of the TID #12 is January 1, 2011.

PROJECT LOCATION AND BOUNDARIES

TID #12 is located north of STH 114 and west of CTH LP (Lake Park Road). Map 1 depicts the site location and the boundaries of TID #12.

City of Menasha

Proposed Tax Incremental District #12

PROPERTY CONDITIONS AND STATEMENT OF FINDINGS

Wisconsin Statute 66.1105(4)(gm)(4) provides that certain conditions must be present within the proposed district and that the city must find that these conditions are present for the area to be eligible for creating a tax increment district. The conditions within TID #12 were inventoried in April of 2011. The findings related to these conditions are as follows:

- Not less than 50 percent, by area, of the real property within the district is suitable for mixed-use development.
- The improvement of this area is likely to enhance significantly the value of substantially all the other real property in the district.
- The project costs relate directly to promote mixed use development.
- The equalized value of taxable property of the district plus the value increment of all existing districts does not exceed 12 percent of the total equalized value of taxable property within the city.
- Any real property within the district that is found suitable for industrial sites and is zoned for industrial use will remain zoned for industrial for the life of the tax increment district.
- The district is a mixed-use district based on the identification and classification of the property included within the district.

PROPOSED IMPROVEMENTS AND PROJECT COSTS

The costs of improvements made within the district include those financed by developers and those incurred by the city. Proposed improvements include approximately \$2 million in developer-funded infrastructure improvements. TIF-funded improvements include land cost write-downs, incentive payments to developers, survey/engineering and real estate costs, the construction/repair of public streets and trails, the costs for landscape, streetscape and other amenities, administrative and other costs as listed in Table 1.

The project costs include land acquisition associated with the purchase of city-owned vacant lands by the Menasha Redevelopment Authority (RDA). The RDA will receive reimbursement for these costs through land sales to developers and subsequent tax increment payments. The land transfer is necessary to alleviate the financial distress the underperforming Lake Park Villas development has imposed on the city. The cost for development assistance in the form of incentive payments to developers is \$4,175,000. Land write down costs through the RDA are \$3.9 million. An additional \$3.25 million is required for the installation of infrastructure and amenities. With administrative expenses and interest on debt, the total projected cost for implementing TID #12 is \$11.35 million. These costs will be partially offset by \$4.35 million in lot sales. Map 2 depicts the proposed land acquisition and project improvements. The project costs are listed in Table 1. The incentives made to developers are structured under the terms of the development agreements attached to the project plan. These expenditures are necessary to induce development and to ease pressures on the city's general property tax caused by the debt burden imposed by the Lake Park Villas development.

There are certain improvements outside of TID #12, including the extension of a bike/pedestrian trail along CTH LP that may be installed using TID #12 resources. The improvements or amenities are necessitated by the project plan for the district pursuant to Wisconsin Statute 66.1105(2)(K) and may be paid through grant funds, special assessments, or other sources of funding, if available.

NON-PROJECT COSTS

There are no anticipated non-project costs projected for TID #12.

RELOCATION

No persons or businesses are expected to be displaced as a result of the implementation of TID #12.

MASTER PLAN, ZONING, BUILDING AND OTHER CODE CONSIDERATIONS

The City of Menasha Year 2030 Comprehensive Plan adopted in 2008 suggests commercial, residential and single and multi-family land uses within the district. The existing land use of the area is shown in Map 3. Future land use is depicted in Map 4. The existing zoning includes R-1 Single Family Residential, C-1 Commercial and PUD Planned Unit Development classifications as shown in Map 5. Future zoning, shown in Map 6, proposes the same zoning classifications, with some reconfiguration to the zoning district boundaries. Multi-family uses are permitted as a Special Use in the C-1 Commercial district. The proposed development within the district is compatible with the land use pattern of the area and is consistent with the City of Menasha Year 2030 Comprehensive Plan and Zoning Ordinance. The goal for industrial development established by the comprehensive plan is to “Maintain and promote industrial development to achieve a balanced industrial base complementary to other areas of the community”. “Industrial development” is an inclusive term that encompasses a wide range of economic activity under the National Industrial Classification System. The creation of TID #12 will also help implement the city’s comprehensive housing plan. Specifically the project will assist with “Development of an adequate supply and a wide variety of housing types”; and with the creation of “Affordable home ownership opportunities”.

ECONOMIC FEASIBILITY

TID #12 is financially feasible. Table 2 shows that the tax increment generated by new development within the project area will equal projected TID expenditures in the year 2025, well within the permissible 20 year term of a mixed-use TID.

PROJECT FINANCING

A total of \$11.35 million will be required to implement the TID #12 project plan. These project costs will be funded by tax increment generated by the project and the sale of city-owned lands. All improvement costs associated with this project are expected to be incurred within five years of establishing the district. Under the proposed TID #12 financing schedule (Table 2), the obligations for project costs will be paid from tax increments as depicted in the schedule. The amortization of land acquisition costs associated with the transfer of vacant city owned land to the Menasha Redevelopment Authority is shown in Table 3.

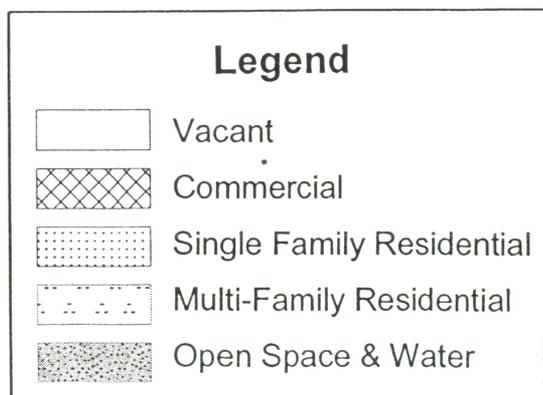

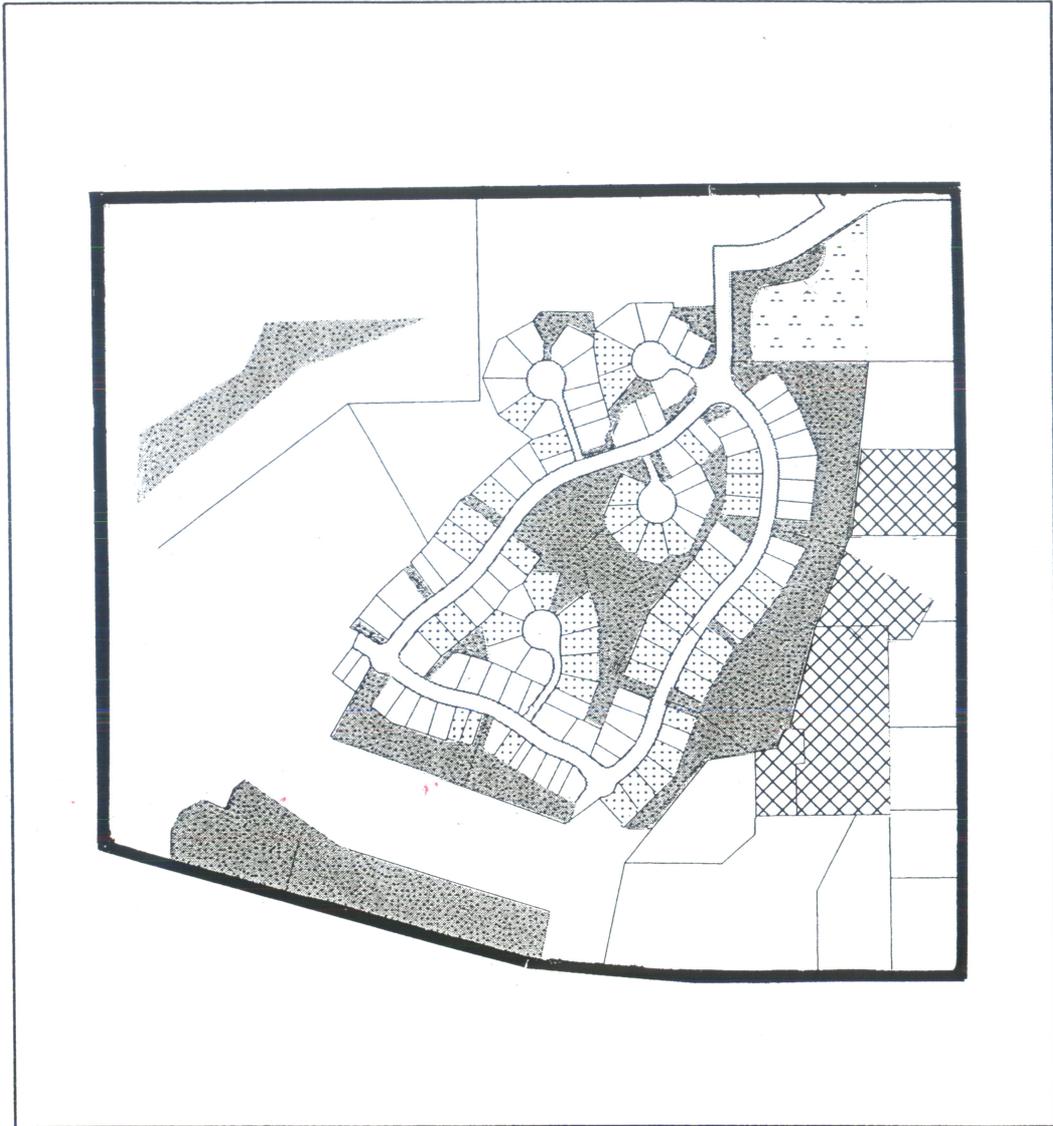

TID #12 has the capacity to generate \$16.6 million in tax increment if it were kept open over the entire 20 year life of the district permitted by state statute. However, it is expected that TID #12 will be terminated at 15 years, when its expenditures are projected to have been met. The amount of accumulated tax increment in the 15 year period is \$10.6 million. This increment would be generated by the projected net increase of \$46.5 million in tax base using a property tax rate of \$25.612 per \$1,000 of value. The collection of tax increments will commence in 2012 based on the taxes levied on the January 1, 2011 property values. Increments generated by the district will be used to repay TID #12 project costs.

The property tax rate has been held constant over the life of the district for the purpose of projecting the increment that would be generated. Similarly, the value increment was calculated exclusive of any increases which may result from appreciation of property values. All increments generated by the district will be applied to the repayment of TID #12 project costs.

DISSOLUTION

Financial projections indicate that TID #12 revenues will match expenditures in the year 2025. Upon close-out after this date, the district will be dissolved and all remaining unencumbered increments will be distributed among the taxing entities. Beginning in the year 2026 the taxes generated by the land and improvements within the district will directly benefit all of the taxing entities.

DRAFT MINUTES

Public Hearing – TID # 12 Project Plan and Boundary

No one spoke.

A. CALL TO ORDER

The meeting was called to order at 3:30 p.m. by Mayor Merkes.

B. ROLL CALL/EXCUSED ABSENCES

PLAN COMMISSION MEMBERS PRESENT: Mayor Merkes, Commissioners Schmidt, Cruickshank, Homan and Sturm, DPW Radtke and Ald. Benner

PLAN COMMISSION MEMBERS EXCUSED:

OTHERS PRESENT: CDD Keil, Tom Vandeyacht, Jim Slezak, Chuck Krause, Ald. Dan Zelinski, Ald. Steve Krueger, Ellen Maxymek and Tom Maxymek

C. MINTUES TO APPROVE

1. **Minutes of the March 8, 2011 Plan Commission Meeting**

Motion by Ald. Benner, seconded by DPW Radtke to approve the March 8, 2011 Plan Commission meeting minutes. The motion carried.

D. PUBLIC COMMENT ON ANY ITEM OF CONCERN ON THIS AGENDA

1. Ellen Maxymek commented on the potential negative impacts of the proposed development of the vacant land west of the existing Lake Park Villas development.

E. DISCUSSION

1. **Conceptual Site Plan for Automobile Sales at 835 Oneida Street**

Chuck Krause, owner of the site, discussed the preliminary site plan and stated that it is his intention that the car sales lot be a transitional use.

Commissioners discussed:

- On-site stormwater management
- Site access and its relationship to the adjoining Kwik Trip
- Future use of the property
- Adjoining land uses and wetlands considerations

CDD Keil stated that a Special Use Permit is required for automobile sales lots. Mr. Krause will need to submit an application and provide a fully developed set of plans in support of the application for his proposal to move forward.

2. **Sign Illumination Standards**

Tom Vandeyacht, site owner of 700 Midway Road and Jim Slezak from Appleton Sign explained the aesthetic and practical issues relative to the standards in the city's sign code relative to internally lit signs. The specific concerns relate to the required opacity of light colored sign backgrounds in multi-tenant signs when only one of the sign panels is being changed-out. This gives the appearance of the sign lighting not working properly.

Plan Commissioners discussed the differing impacts of the lighting requirements for single vs. multi-tenant signs and the desirability of creating standards for each type. CDD Keil is to make a determination regarding the sign panel insert at this address and prepare ordinance language clarifying the lighting/opacity standards for multi-tenant signs.

3. **Acquisition of 121 Washington Street**

CDD Keil stated that there have been discussions with the owner regarding acquisition by the city. The primary purpose of the acquisition would be to clean-up the site as it is located in a gateway corridor. The owner lives out of state and has a difficult time ensuring that the site is properly maintained. The site has petroleum contamination and about \$10,000 of clean-up work remains. The clean-up is PECFA eligible and the owner would be responsible for 5% of the clean-up cost.

Commissioners discussed the desirability of improving the Washington Street corridor as a gateway into the community, PECFA clean-up costs and future liability, and the long range benefits of securing the property.

It was the consensus of the Plan Commission that staff should continue to pursue acquisition.

F. ACTION ITEMS

1. **Plan Commission Resolution 1-2011 Recommending Approval of the Project Plan and Boundary of Tax Increment District #12**

CDD Keil reviewed the background leading up to the development of the project plan. TID #12 is being proposed as a means of stimulating development in Lake Park Villas (LPV). The debt associated with the original phases of the LPV development was intended to be supported by lot sales. Since the city hasn't sold a lot in over 3 years, this debt is now being placed on the general tax levy.

Commissioner's discussed:

- The various phases of the new development
- Its relationship and impact on the existing residential area
- The character, quality and density of development
- Future street and pedestrian access
- Extending the existing trail system

Motion by DPW Radtke, seconded by Catherine Cruickshank to approve Plan Commission Resolution PC 1-2011 Recommending Approval of the Project Plan and Boundary of TID #12 to the Common Council. The motion carried.

G. ADJOURNMENT

Motion by Ald. Benner, seconded by DPW Radtke to adjourn at 5:10 p.m. The motion carried.

Minutes respectfully submitted by Greg Keil, CDD.
