RE: Flood Insurance Information

Last week I attended a meeting regarding high water in the lakes and rivers in Winnebago County. As part of the meeting Emergency Management Director Linda Kollmann presented information on flood insurance. I found the information to be insightful and believe this is something we should share with our community members.

**Important information on flood insurance**

- Homeowners and renters insurance **does not typically cover** flood damage.
- You can purchase flood insurance whether you are a home owner or are a renter.
- You can purchase flood insurance even if you don't live in a flood plain.
- More than 20 percent of flood claims come from properties **outside high-risk flood zones**.
- Flood insurance can pay regardless of whether or not there is a Presidential Disaster Declaration.
- The cause of the flooding matters. Damage caused by a sewer backup is only covered by flood insurance if it's a direct result of flooding; the damage is not covered if the backup is caused by some other problem.
- Know the difference between flood insurance and water/sewer backup insurance. Talk to your insurance agent.
- It typically takes 30 days from the day you purchase flood insurance for the policy to go into effect. When purchasing a policy, ask your agent when coverage will start.
- National Flood Insurance Program (NFIP) policies can be purchased through thousands of insurance agents nationwide. The agent who helps you with your homeowners or renter's insurance may also be able to help you with purchasing flood insurance. Here is a list of participating agents: [https://www.floodsmart.gov/flood-insurance-provider](https://www.floodsmart.gov/flood-insurance-provider)
- If your insurance agent does not sell flood insurance, you can contact the NFIP Help Center at 800-427-4661.

Menasha, WI 54952

Dear Candyce Rusin:

The Department of Health Services (DHS) congratulates the City of Menasha Health Department for demonstrating the infrastructure and program capacity to be certified as a Level III Health Department. I am happy to report the Menasha Health Department provided all services required by statute and rule.

I want to acknowledge the work of the Menasha Health Department staff. Nancy McKenney, health officer, did an excellent job of providing quality evidence of meeting statutes and rules. I also appreciate the support of the Menasha Board of Health for maintaining a strong public health department. I am sure that with ongoing support, the Menasha Health Department will continue to protect and promote the health of the people in your jurisdiction.

Please work with Tara Vasby ((608) 266-7333, tara.vasby@dhs.wisconsin.gov) to schedule the presentation of your Certificate of Designation by myself, or another representative from the Division of Public Health, at a future county board, board of health, or health department meeting.

To: Common Council
From: Adam Alix, Director of Public Works

Date: February 12, 2020
Re: Public Works Facility Construction Project

The Common Council is being asked to approve the construction of the new Public Works Facility at a total cost of $11,438,157 as was outlined at the February 3, 2020 Board of Public Works meeting.

This approval will authorize the City to enter into agreements with Miron Construction Company for the building of the Public Works Facility as designed; Gene Frederickson Trucking & Excavating for the removal of the existing cold storage building and underground storage tanks; US Petroleum Equipment for the purchase and installation of the maintenance shop equipment; and the University of Wisconsin Milwaukee for the archaeological monitoring.

At this point we have not bid the above ground fuel tanks and fueling station. The anticipation is to bid this work this summer, because of its proposed location on the site, the fuel tanks and fueling station will need to be constructed after the majority of the facility has been constructed. In addition, bidding this work later in the construction process we are given the opportunity to see how construction costs are progressing. If at that point we feel there will be contingency money available we would propose including a canopy as part of the fueling station construction.

RE:    CSM Lot Line Adjustment and Lot Consolidation – 334 Winnebago Avenue (#3-00525-00) and 342 Winnebago Avenue (#3-00099-00)

Keith and Jennifer Haack, owners of 334 Winnebago Avenue, along with Doctors with Boarders, LLC, owners of 342 Winnebago Avenue, request approval of a Certified Survey Map (CSM). The CSM will adjust the north/south lot line of the properties twenty-two (22) feet north. This adjustment will allow for a new detached garage to be built at 334 Winnebago Avenue in accordance with zoning requirements.

While reviewing this CSM it was discovered that, at some point, 342 Winnebago Avenue had been combined with a vacant parcel to the south (parcel #3-00253-00). This CSM will also clean up the boundary of 342 Winnebago Avenue along with its legal description.

The lots are currently zoned Single Family Residence District (R-1), which allows for single family homes. Lot 2 is 7,587 square feet (.174 acres) and Lot 1 is 15,147 square feet (.348 acres). After the lot line adjustment Lot 2 will be 10,622 square feet (.244 acres) and Lot 1 will be 12,178 square feet (.280 acres).

Currently, the southern lot (334 Winnebago Avenue) is a legal nonconforming lot as the width does not meet the minimum lot width requirement of sixty (60) feet. The proposed CSM will bring the lots into compliance with regard to lot size, setback, and dimensions set forth in the R-1 Single Family Residence District. Furthermore, the proposed CSM is consistent with the City of Menasha Comprehensive Plan.

The Plan Commission reviewed this request at their February 4, 2020 meeting and recommend approval of the Certified Survey Map, as presented with the condition that the Community Development signature line be changed to signature lines for Mayor and City Clerk.

Since the Plan Commission meeting, the Certified Survey Map has been revised to reflect that recommendation and is attached for approval.

Recommendation

Approval of the Certified Survey Map for the lot line adjustment and lot consolidation of 334 Winnebago Avenue and 342 Winnebago Avenue (Parcel #3-00525-00 and 3-0009-00) as presented.

RE:     CSM Lot Division – 730 Lake Park Road (Parcel #7-01700-06)

Martenson and Eisele, on behalf of the owner TB2 LLC, have submitted an application for a Certified Survey Map (CSM) that would divide 730 Lake Park Road into two lots.

The lot is currently zoned General Commercial (C-1) and used as an indoor recreation facility. February 5th, 2019 the Plan Commission recommended approval of a CSM that consolidated 730 Lake Park Road, Lot 5, Lot 6, and 700 and 750 Lake Park Road into one lot.

Prior to this lot consolidation the lots were separate. The CSM presented today would return the fieldhouse portion of 730 Lake Park Road to its prior February 5th, 2019 parcel shape.

The size, setbacks, and dimension meet city standards for the C-1 General Commercial District. Furthermore, the proposed CSM will not create any zoning nonconformities and is consistent with the City of Menasha Comprehensive Plan.

Plan Commission discussed the CSM and recommended approval on February 4th, 2020 and asked that the surveyor display the parent parcel on an updated CSM.

Recommendations

Approval of the Certified Survey Map as proposed dividing 730 Lake Park Road into two parcels (#7-01700-06).

MEMORANDUM

Date: February 17, 2020

To: Common Council

From: Community Development Department/SS

RE: Development Agreement between the City of Menasha and RF Development Group, LLC - Brin Area Development

In December, RF Development Group (RFDG) presented a preliminary proposal for the redevelopment of the Brin area to the Common Council. This development included a 3 story mixed use building with roughly 8,000 SF of commercial space connected by a skywalk to a 4 story residential apartment building, totaling 46 units and estimated value of $10,000,000. Although the development site is located within a TIF district, the developer has not asked for any incentive towards the construction of the building; however, there will be City funds that are needed to construct a regional stormwater detention facility as noted in the City’s stormwater management plan submitted to the Wisconsin DNR.

On December 16, 2019, the Common Council motioned to direct staff to work with RFDG to bring back a development agreement for further consideration based upon the presented project.

Attached to this memo is the draft development agreement. Due to the complexity of the project, the development agreement is broken into individual phases whereas both the City and the RFDG have certain obligations that need to be met simultaneously through each phase.

- Phase I – Design
  - RFDG will continue to finalize the design of the site and building in preparation of submitting the plans for approval.
  - The City will work with WEDC to attempt to get a Community Development Investment Grant and begin design work on the regional stormwater detention pond.
  - Phase I is to be completed no later than June 1, 2020

- Phase II – Approvals
  - RFDG will work with the City to submit the plans for proper approval and will demonstrate the acquisition of privately owned properties.
The City will complete the design work of the stormwater detention and work through proper approvals to vacate the street, possibly a budget amendment, and approve the disposition of public properties.

- Phase II is to be completed no later than August 1, 2020.

  - Phase III – Execution
    - Following approvals and the demonstration of financing, RFDG and the City shall exchange properties through warranty deeds for the price of $1.00.
    - The City shall also BID the stormwater project.
    - Phase III is to be completed no later than September 1, 2020.

  - Phase IV – Construction
    - Phase IV is the construction phase of the project. RFDG shall completely demolish the two privately owned buildings no later than December 31, 2020 and start construction of the new facility by December 31, 2020.
    - Prior to or at the front end of the project, the City shall construct regional stormwater detention facility.
    - New construction shall be completed no later than December 31, 2021.

  - Phase V – Future
    - Phase V is a future phase whereas both parties are subject to continued obligations and the possible construction of a new restaurant facility.

Staff recommends the Common Council approve the development agreement as presented.
LAND PURCHASE AND DEVELOPMENT AGREEMENT

This land purchase and development agreement (Agreement) is entered into as of February __, 2020, between the City of Menasha, a Wisconsin Municipal Corporation, 100 Main Street, Suite 200, Menasha, Wisconsin 54952 (City), and RF Development Group, LLC, a Wisconsin Limited Liability Company, 140 Main Street, Menasha, Wisconsin 54952 (RFDG).

RECITALS

A. The City created Tax Increment District No. 10 as defined by Wisconsin State Statutes, Section 66.1105(2)(k) on June 05, 2006; and,

B. Following the fire that damaged the historical building beyond repair on August 10, 2018, the City purchased the former Brin Theater property located at 1 Main Street on November 18, 2018, for the orderly redevelopment of the area; and,

C. RF Development presented “the BRIN project” to the City Common Council on December 16, 2019, consisting of forty-six (46) market rate rental housing units, 8,000 square feet of commercial space, combined with underground parking and surface parking, and a landscape pad for a future waterfront restaurant development valued at roughly $10,000,000.00 with the goal to facilitate a ‘revitalization’ of Downtown Menasha as a destination location; and,

D. The City, in accordance with the 2008 Comprehensive Plan, the 2017 Downtown Vision Plan, and 2018 Water Street Corridor Plan, desires to see redevelopment of this area; and,

E. The City in accordance with Wisconsin Department of Natural Resources requirements adopted a Stormwater Management Plan dated December 1, 2015 which calls for the construction of a regional stormwater detention facility in this vicinity to support the regional growth of the area.

ARTICLE I. DEFINITIONS

1.1 Definitions.

1.1.1 District. All properties included as part of the Tax Increment Finance District No. 10 as described in the adopted project plan.

1.1.2 Phase. As further defined hereunder, this Agreement shall layout a phase approach to the development whereas RFDG and City obligations are completed in simultaneous steps. A summary of the timeline and phases of the Project are shown in EXHIBIT B. At any time a phase cannot be met by a party, the other entity shall provide reasonable time to the other entity to cure said phase or prepare an amendment to the Project.

4.2 **Acceptance of Agreement.** Subject to RFDG’s termination rights under Article 2.13, the acceptance of this Agreement and granting of any and all approvals, licenses, and permits by the City will not obligate the City to grant any additional approvals, including, but not limited to, variances, exceptions, or conditional use permits, or approve any building or use the City determines not to be in compliance with the applicable municipal codes and ordinances of the City. The City agrees to work in good faith, promptly, and diligently in connection with the issuance or grant of all such approvals, consents, permits, certificates, and any other documents as may be necessary or desirable in connection with the development, utilization, and operation of the Properties and to act reasonably and expeditiously and in cooperation with RFDG in connection therewith; it being understood and agreed that this provision is not intended to limit the rights of the City as more particularly set forth above or in Article VII below.

MEMORANDUM

To: Common Council
From: Community Development Department/JS
Date: February 17th, 2020
Re: Ordinance O-03-20: An Ordinance Repealing and Replacing Title 13-1-88 – “Fences and Hedges”

Over the past year various complaints have been made regarding different fence situations in the City of Menasha. In addition, a few Alderman have expressed interest in creating a fence ordinance that promotes quality fencing and encourages maintenance of existing fences. For these reasons, city staff examined the current fence ordinance.

Upon review of the current fencing ordinance many issues were found and staff felt the only way every issue could be addressed was to completely repeal and replace the fence ordinance. The ordinance presented today helps prevent the creation of public nuisance; preserve property values; and promote the comfort, health, safety, morals, prosperity and general welfare of the people of the City of Menasha. This ordinance will repeal and replace the existing ordinance. Major changes made to the ordinance are as follows:

- In residential lots fences in the front yard must be no taller than 3’ 6” with 50% open to vision.
- In residential lots fences in the rear yard must be no taller 6’; all other zones 8’. With an exception for residential lots that are adjacent to commercial or industrial uses, allowing those fences to go up to 8’ tall in the rear yard.
- A provision allowing additional height for decorative posts, slopes and berms was added.
- Residential parcels may not use the following for fencing: barbed wire, electrical fences, strand fences, corrugated metal, razor wire, t-posts, u-posts, or any improvised material not traditional used as a fence.
- All fences require a top rail support.
- Galvanized or coated chain link, fencing used for livestock, chain mesh, and the like are prohibited in the front yard.
- All fencing shall be maintained in a structurally sound, attractive and vertical manner.
- Snow fencing with the purpose of preventing snow drifts is permitted between November 15 and April 15 of the following year.

Staff feels these changes will help to insure that high quality fencing, that is well maintained, will be used in the appropriate areas. In addition, the new code helps to fix many holes and inconsistencies in the old code including fence heights, maintenance, definitions of fences, permit requirements, etc.

Plan Commission debated the fence ordinance at two meetings, January 7th, 2020 and February 4th, 2020. The Plan Commission recommended approval of the fence ordinance as presented but agreed to add a provision to allow residential properties adjacent to commercial or industrial districts to build a taller fence in the rear yard.

Staff and Plan Commission recommend the Common Council approve Ordinance o-03-20, repealing and replacing Title 13, Chapter 1, Article G, Sec. 13-1-88 of the Code of Ordinances of the City of Menasha.
