She also believed the fee would not be viewed as excessive for the added security it will bring to the marina. Motion by L. Hopwood, seconded by S. Pawlowski to recommend to the Common Council a one-time $35 fee in 2014 for a camera system for the marina. Motion carried.

2. Raise the Weekly Rate from $3.50 to $4.00 in 2014

Meeting called to order by PWD Radlke at 11:02 AM

B. ROLL CALL/EXCUSED ABSENCES
PRESENT: PWD Radtke; CDD Keil; PC Styka; Ald. Zelinski
EXCUSED: CA Captain
ALSO PRESENT: Wayne and Verna Peterson, 1800 Alcan Drive; Margaret Steffens, 708 London Street; Carol Schmidt, Public Works and Engineering Department

C. MINUTES TO APPROVE-MINUTES & COMMUNICATIONS TO RECEIVE
1. Motion by Ald. Zelinski, seconded by CDD Keil to approve the minutes of the October 11, 2012 meeting. Motion carries on voice vote.

D. ACTION ITEMS
1. Request for No Parking Signage in Front of Fourteen Mail Boxes on Alcan Drive in Front of Windsor North Condominiums

Wayne and Verna Peterson of 1800 Alcan Drive were present for this item. They stated cars are parking in front of the mail boxes on the east side of Alcan Drive, across the street from their home. This includes the fourteen mailboxes for Windsor North Condominiums and the Peterson’s free standing mailbox. The mail carrier is telling them that if the mail boxes are blocked she cannot deliver the mail. They are requesting the city install “No Parking Between Signs” signage before and after the mailboxes. The Peterson’s presented a picture which is attached.

General discussion ensued regarding the precedent it would set for similar situations in the rest of the city if signage were provided here.

PC Styka shared the procedure regarding blocked mailboxes from the FAQ section of the Postal Service current website. (See attached) It is unknown if the mail carrier is aware of that procedure.

General discussion continued regarding signage, who is responsible to contact the mail carrier, Postmaster, Condo owner, etc.

PC Styka stated he will make the necessary contacts with the Condo Association to try and resolve the issue and then advise the Petertons of his findings.

No motion was made.
2. **Request to Restrict Parking to East Side of London Street Between Ninth Street and Plank Road**

Margaret Steffens stated they have lived at 708 London Street for 30 plus years and traffic has increased significantly since then. She is requesting to prohibit parking on the west side of London Street from Plank Road to Ninth Street.

Much discussion ensued regarding the restriction of parking to the east side of the street. Many of the residents would not be able to park in front of their homes creating neighbor issues. Speed of vehicles would likely increase in this area along with concerns with overnight odd/even parking.

PWD Radtke suggested Margaret talk with her neighbors for additional support of her request and contact him if she would like to proceed.

No motion was made.

**E. ADJOURNMENT**

1. **Motion made by CDD Keil, seconded by Ald. Zelinski to adjourn at 11:47 AM.**

   Motion by Comm. Schmidt, seconded by Ald. Benner to approve the September 10, 2013 Plan Commission meeting minutes. The motion carried.

E. DISCUSSION

1. Ordinance Requirements as Related to Setbacks from Drainage Easements for Structures
   Commissioners continued discussions regarding current code provisions regarding drainage easements, including:
   • Constraints added to site usage with additional setbacks off of the easements.
   • Inability for a property owner to discern additional setback restrictions if not contained within the subdivision plat.
   • Drainage easements in the rear versus side yards.
   • Differences between drainage easements, such as those containing ditches versus swales.
• How to address adequate drainage easement widths via the subdivision and drainage approval process.

It was the consensus of commissioners to direct staff to inquire with other municipalities regarding code provisions that address drainage easement design as part of the subdivision and drainage plan approval process, and recommend potential code changes at a future Plan Commission meeting.

ACTION ITEMS

1. Special Use Permit – 145, 149, and 153 Kaukauna Street – Advanced Aquatic Solutions
   CDD Keil provided an overview of the proposed special use and associated site plan. CDD Keil indicated required improvements include provision of landscaping adjacent to the building abutting parking and public street, and striping of parking stalls, which have been included in the proposed site plan.

   Commissioners discussed the location of dumpsters and screening from public view, existing barbed wire, and continued use for boat storage.

   CDD Keil indicated that continued use for boat storage was not contemplated in the Special Use Application being considered, and presented two options for moving forward:
   • Amend the current special use permit application, which would require re-notifying all neighbors, publication of a notice, and rescheduling public hearings.
   • Continue with the current application, as presented, and submit and amendment at a later date.

   Mr. Bauer indicated he wished to pursue the later.

   Commissioners inquired whether there was any plan to modify the lighting. Mr. Bauer indicated there were no plans to modify the current lighting.

   Mayor Merkes asked whether there were plans to remove the barbed wire. Mr. Bauer indicated it was beneficial to protect his equipment for the barbed wire to remain. Community Development staff indicated barbed wire is allowed in industrial zoning districts.

   Motion by DPW Radtke, seconded by Ald. Benner to recommend approval of the Special Use Permit for Advanced Aquatic Solution with the following conditions:
   • Groundcover in and around proposed landscape areas to consist of landscape grade mulch or decorative stone.
   • Landscaping proposed in terrace adjacent to Water Street is subject to Parks Superintendent approval.
   • An additional narrative describing site improvements will be included for review by Common Council.

   The motion carried.

   1. City of Menasha Energy Usage
      Paul calculated energy savings and demand charge reduction for the library changing three lamp
      fixtures with lower wattage bulbs keeping perceived light levels the same or greater. Cost would

Also present were Melanie Krause, Interim General Manager; Steve Grenell, Project Engineer; Kristin Hubertus, Business Operations Accountant; Paula Maurer, Customer Services Manager; Lonnie Pichler, Electric and Water Distribution Supervisor; and John Teale, Technical Services Engineer.

Those absent were: Commissioner Zelinski and Water Plant Supervisor Tim Gosz.

In the absence of Commission Secretary Zelinski Administrative & Accounting Assistant Dawn Lucier took the minutes for the meeting.

Item II. No one from the Gallery was heard on any topic of public concern to the Utility.

Item III. New Business, Strategic Planning – Interim General Manager Krause reviewed the major changes made to the 2014 Strategic Plan. Following suggestions made during strategic planning meetings, management has included more of a big picture scenario rather than detailed lists. The strategic plan has been reformatted and common departments have been combined into each entity. Departmental goals & objectives for each Utility have been organized by the Strategic Initiatives that have been identified with the organization; the process of accomplishing the goals & objectives will be included in the budget/action plan.

Comm. Roush commented the budget process item of core values and employee involvement was a good addition in the development of the Strategic Plan. Comm. Allwardt added providing the document to employees was equally as important showing the theme of the process revolving around employee involvement and feedback. Ms. Krause added all employees have had the opportunity to participate in strategic planning training directed by Cities and Villages Mutual Insurance Company.

Discussion over the Strategic Plan and Organizational Goals ensued.

A SWOT analysis, which identified strengths, weaknesses, opportunities and threats to the Utility, was added to the strategic plan.

Comm. Allwardt requested that within the next year, a 10, 20, 30 percentage of impact study be performed. Ms. Krause stated staff is working with WPPI on an impact study report, however, the new rate case figures would need to be incorporated before it would be completed.

The remainder of the Strategic Plan was re-categorized featuring the Strategic Initiatives as the outline with goals and objectives underneath; the list of budget items are replaced with a broader narrative; and accomplishments for each department were removed because they are now being reported on the monthly Strategic Initiative Update as part of the Commission meeting.
Modifications and updates will be provided in a revised draft plan with the budget.

Technical Services Engineer Teale departed at 9:25 a.m. and returned at 10:35 a.m.

During the discussion the Commission asked for more quantified specific measurements.

Comm. Merkes commented he would like to see more quantified measurements.

Water Plan Supervisor Gosz stated the System Reliability goal is to maintain or exceed water quality standards; update current procedures; and maintain cross connections. The Capital Improvements objectives focus on where the Utility is heading by finishing the source water study; evaluating the entire water system in order to come up with a capital needs plan; and creating a long-term strategy for the 4 inch water mains

Customer Services Manager Maurer and Technical Services Engineer Teale arrived at 8:10 a.m.

A discussion was held regarding the Water Plants output capacity in conjunction with fixed costs applied against a decrease in water consumption. Comm. Roush requested a breaking even point scenario regarding water consumption.

Comm. Roush commented that changes made to the bulleted items in the Electric Utility should be transferred over to the Water Utility.

Ms. Krause reported the majority of items within the Telecommunication Utility were identified in the Business Plan outlined in August. The key benefit of this Utility is its critical service for the City and Menasha Utilities. The focus of the Utility has not changed, it has just been reorganized.
Electric and Water Distribution Supervisor Pichler departed at 8:45 a.m.

Comm. Merkes mentioned waiting on replacing lights at Jefferson Park. Ms. Krause suggested modifying the objective to evaluate lighting against future plans with the parks.

Discussion ensued over the details of the consent decree and working with the EPA.

A. Minutes of the Regular Meeting of August 28, 2013
B. Approve and warrant payments summarized by checks dated September 5-25, 2013, which includes Net Payroll Voucher Checks, and Operation and Maintenance Voucher Checks for a total of $647,321.14, and Operation and Maintenance Vouchers and Rebates to be paid prior to the next Regular Meeting. Motion approved unanimously on roll call
C. Correspondence as listed:
   Copy of letter from Kaukauna Utilities dated August 21 RE: Thank you for help during the August 7th storms.

   Copy of Fox Cities Regional Partnership pamphlet RE: Fire Up Program
   Copy of letter from the State of Wisconsin\Department of Natural Resources dated Sept. 4th
   Re: Application for Reissuance of WPDES Permit – Menasha Steam Plant

Comm. Roush questioned if the Steam Plant WPDES Permit from the DNR would be renewed or allowed to expire. Interim General Manager Krause responded the application would be completed and worded that a potential buyer would be subject to catching up on the compliance schedule once ownership was assumed.

Comm. Allwardt thanked the line crews for helping Kaukauna Utilities after the storms on August 7th.

Item IV. Claims Against The Utility – there were no claims discussed at this meeting.

Item V. No purchase Orders over $10,000.00 were issued since the last Commission meeting.

Item VI. Unfinished Business, GM Position Update – Comm. Allwardt reported that three interviews for the General Manager position were performed on September 14th. The Commission will be reviewing the finalists in a closed session following today’s regular meeting.
Electric Rate Case – Ms. Krause explained the PSC decreased the CP3 customer’s percentage which in turn adjusted the remaining rate classes. If the rate order is received by the end of September, the effective date will be October 1st, if it is not received by then the rates are effective November 1st. After the rate order is received the Utilities will look at requesting a modification for the LED lights to be comparable to the induction lights.

A report of customer classes showing PSC approved rates, compared to present rates, was included in the packet. Approved rates, compared to WEPCO rates by class, were added for comparison.

We Energies Acquisition – Mr. Pichler stated staff is still evaluating the transformer needs against WE Energies costs.

Item VII. New Business, Low Lift Pump Evaluation – Water Plant Supervisor Gosz described the preliminary engineering report for installing two above-grade vertical turbine raw water pumps and a new discharge flow meter at the Water Plant. The installation would eliminate the deficiencies the DNR noted during the 2013 Sanitary Survey. In addition the relocation of a 16” water pump discharge pipe was addressed. The project is estimated at $399,000.

Comm. Allwardt inquired about installing only one turbine verses two. Don Voogt from McMahon explained a larger turbine would have to be purchased and the efficiency of running the turbine at low flows would be inefficient. Instead, using two smaller pumps that are better matched to the flow rates would save in electricity and also would create redundancy. Mr. Gosz added that rebates for the project would be available through Focus on Energy.

Don Voogt departed at 8:20 a.m.

Item VIII. Strategic Reports, Monthly Strategic Initiative Update – Ms. Krause presented the monthly strategic initiative update. The update will be modified to include targets after the budget process is complete.

Comm. Zelinski asked when the Landlord informational mailings will be sent. Customer Service Manager Maurer stated they would be sent out soon.

The Commission requested an update on the dollar amount turned over to the collection agency; how much has been collected; the amount written off through bankruptcy; the percentage of accounts that legal action was taken against and a copy of the landlord informational materials.

Comm. Allwardt questioned the OSHA rate having 2 incidents. Ms. Krause stated one incident was a hearing loss and the other was a potential chemical exposure.

August Financial and Project Status Reports – Electric consumption decreased 1.36% compared to budget with year-to-date coming in at .22% higher than budgeted. Revenue is down year-to-date compared to budget driven mainly by the ECA and DCA rates. Year-end cash flow is anticipated to be above budget due to project deferrals made earlier in the year. The deferred projects are currently being reviewed and prioritized.
Water consumption increased 26.9% compared to budget driven mainly by an industrial customer consuming more water than anticipated; year-to-date consumption is up 10.24% compared to budget. Revenues are higher than budget along with net operating income. Chemical costs are up due to water conditions during the month of August, however, year-to-date remains lower than budget.

Comm. Zelinski asked about the status of the High Lift Pump Station West Wall Project. Mr. Gosz reported the advertisement for bids has taken place. Ms. Krause added the bid will be added to the Special Budget Agenda in October.

Comm. Allwardt inquired when the alum pump, hypochlorite pump and conductivity meter will be installed. Project Engineer Grenell replied the pumps and meters will be installed after projects currently being worked on are complete and man power is available.

Comm. Zelinski questioned the administrative costs associated with cleaning up scrap around the steam plant. Mr. Grenell stated theft of the scrap metal around the building was occurring.

After discussion, the Commission accepted the August Financial and Project Status Reports as presented.

Project Reports, Water Plant Projects – Water pressure is being monitored continually and the variable speed drives that replaced the water tower are working as expected.

Metering Practice & Plan – There are 400 AMR meters expected to be installed by the end of the year for electric and 200 meters for water. Letters have been sent out to customers and meters will be changed according to the priority assigned. Customer Service is working on customer classifications based on usage.

Steam Plant RFP – Power System Engineering received four notices of intent. The four received appear to be demolition/decommissioning resale equipment companies. A date will be set for a plant tour.

Power System Engineering requested a change order for the RFP work performed adjusting the price from $6,500 to $9,500. The Commission did not recommend the change order.

Item IX. No one from the Gallery was heard on any items discussed at this Meeting.

Item X. The motion by Comm. Merkes, seconded by Comm. Kordus, was unanimously approved on roll call at 9:20 a.m. to convene into Closed Session pursuant to Section 19.85 (1) (c) of the Wisconsin Statutes for the purpose of deliberating or negotiating the purchasing of public properties, the investing of public funds, or conducting other specified public business, whenever competitive or bargaining reasons require a closed session. RE: AFSCME Negotiations
And pursuant to Section 19.85 (1) (c) of the Wisconsin Statutes for the purpose of considering employment, promotion, compensation or performance evaluation data of any public employee over which the governmental body has jurisdiction or exercises responsibility. Re: General Manager Position.

There being no further business, the motion by Comm. Roush, seconded by Comm. Kordus was unanimously approved to adjourn from Closed Session and to reconvene into Open Session of the Water and Light Commission meeting at 9:44 a.m.

The motion by Comm. Roush, seconded by Comm. Merkes was passed on roll call (3-2) to select Melanie Krause as General Manager of Menasha Utilities effective immediately at the base salary for the General Manager position and not be eligible for a step increase until 2015. Those absent were: Comm. Zelinski and Comm. Roush.

In the absence of Commission Secretary Zelinski Administrative & Accounting Assistant Dawn Lucier took the minutes for the meeting.

Item II. No one from the Gallery was heard on any topic of public concern to the Utility.

Item III. New Business, Change Order #1, Don Hietpas & Sons, Inc. & Change Order #6, Dorner, Inc. – Water Maintenance Foreman Maurer discussed the reason for the change order #1 to Don Hietpas & Sons was to coordinate with the City’s plan to resurface Lakecrest Drive in 2014.

General Manager Krause added temporary asphalt patches will be installed until the road is resurfaced. This will result in an approximate $5,000.00 credit for materials that will be reflected on a forthcoming change order.

Comm. Merkes commented the memo from McMahon states that the City of Menasha adopted project funding. The City has not adopted the funding, it is in the budget.

After discussion a motion made by Comm. Allwardt, seconded by Comm. TO: Common Council  
FROM: Greg Keil, CDD  
DATE: October 17, 2013  
RE: Demolition of Army Reserve Buildings

The Common Council took action on October 15, 2012 (see attached) to approve the recommendation of the Plan Commission to terminate the lease and accept the Army Reserve property with conditions including the removal of structures. On August 26, 2013 the Common Council approved entering into a supplemental lease agreement with the US Army Corps of Engineers (USACE) whereby the city accepted the Army Reserve property together with a payment of $140,000 to cover costs associated with the demolition of the Army Reserve buildings at 993 Third Street and restoration of the site.

In July of 2013 the USACE received quotes from two asbestos abatement contractors in the amounts of $17,740 and $22,900. It also received three quotes for demolition and site restoration in the amounts of $93,125, $105,654 and $182,700.

In September, the Community Development Department requested an additional quote for asbestos abatement and solicited quotes from five demolition contractors, including two of the three that had made proposals to the USACE. This solicitation included a modified scope of work from what the USACE had requested, with the primary difference being that the contractors were given the option of disposing of clean demolition waste in the Badger Highways pit. The additional quote for asbestos abatement came in at $18,400. Only one quote was returned in response to the demolition contractor solicitation, which was in the amount of $63,900.

I am now requesting Common Council authorization to proceed with the asbestos abatement and site clearance/restoration work for $17,740 and $63,900, respectively, using the USACE funds that were placed in the park land dedication account.
